

Parents in Mrs. McClintock's class:

Good news! I have set up for you and your child to access the **GO Math! Curriculum** from your home computer. Go to [www-k6.thinkcentral.com](http://www-k6.thinkcentral.com). Each student's User Name is unique. The password for every student in my class is "gomath". Your child should have their username in their agenda. Below are the online screen selections that you must have in order to enroll your child to be able to view the textbook online.

The screenshot shows the login interface for THINK central. At the top, it says "Welcome to THINK central". Below this is a dark blue header bar with the text "Students, Teachers, and Administrators". The main form area contains several dropdown menus for "Country" (United States), "State" (TEXAS), "District" (Houston Ind School District, Houston 77092), and "School" (West University Elem School, Houston 77005). There is a checkbox labeled "Remember my school" which is checked. Below these are input fields for "User Name:" and "Password:". A "Log In" button is positioned below the password field. At the bottom of the form, there are links for "Teachers and administrators only", "Forgot User Name", and "Forgot Password". A blue button labeled "Evaluators Click Here" is located at the very bottom of the page.

Once the child is logged on, they are to select the "My Library" option and then select the "Interactive student Edition" to view the videos for the lesson. They can select "Student Edition eBook" to view (and print) the textbook online.

Please feel free to contact me if you have any questions regarding this matter.
